ULTIMATE RELIABILITY

LATCH TYPE
HIGH SPEED SYSTEM

A BIEN-AIR INNOVATION ESTABLISHING UNPRECEDENTED STANDARDS

Discover a whole new dimension when combining your high-speed contra-angle with latch-type burs. The result is a product whose durability is multiplied by more than two, demonstrating unrivalled versatility and reliability in all tested scenarios.

- 1/ **GREATER ROBUSTNESS THROUGH THE UNIQUE DESIGN OF THE LATCH-TYPE BURS.**
- 2/ **ENHANCED STABILITY AND REDUCED VIBRATIONS THANKS TO THE LONGER BURS' LENGTH.**
- 3/ **IMPROVED AND FASTER CUTTING SPEED FOR OUTSTANDING EFFICIENCY.**

CONTRA-ANGLE

1:2.5

SWISS  MADE

Bien Air
Dental

**APICECTOMY
HEMISECTION
CROWN LENGTHENING
WISDOM TOOTH EXTRACTION**

To provide you with cutting-edge and higher-performance contra-angles, the redesigned CA 1:2.5 can now be combined with extra-long 34 mm surgical burs in latch-type! Making it the new reference for surgery and periodontology.
