

NEW
CAPRIMA

**MORE
THAN A SIMPLE
CONTRA-ANGLE**

DESIGNED FOR YOUR PEACE OF MIND

The CA PRIMA is not just an evolution of a previous generation. It is an entirely re-engineered 1:1 contra-angle.

We've taken our legendary reliability and enhanced it with our renowned Swiss quality and know-how. This, combined with a number of innovative features, has led to a completely reinvented contra-angle.

The result is a product designed to simplify your work and offer you complete peace of mind. While its engineering might seem impressive on the inside, the outside is simply a contra-angle with the utmost reliability and lasting durability, allowing you to work with absolute ease and confidence and enhancing your patients' comfort.

OPTIMISED FIELD OF VISION

Redefined handpiece head in a tapered shape, offering you better visibility.

GUARANTEED RELIABILITY

Reduced vibrations thanks to the patented *Accu-chuck advanced* system that guarantees longer service lifespan and enhanced comfort.

DESIGNED TO LAST

Built using stainless steel for greater resistance to mechanical impact and extended service life.

IMPROVED VISIBILITY AND GREATER PRECISION

Newly patented mixed *Accu-spray micro* system creating a finer spray cloud for improved visibility and working precision.
